

## Courtesy to the Public

On occasion we have had problems obtaining release and possession of the courts that we reserve. In order to create as little friction and confrontation as possible, we need to take proactive steps to alleviate this problem.

As of October first we will ask our team Captains or team representative to place reserved signs on the gates of the courts that we have reserved, and are going to use no less than 15 minutes before we need to take possession of the

courts. We will explain, in a courteous manner that we have these courts reserved and will need them to finish and release them in 15 minutes.

As an example if we plan on starting warmup at 6:30, we need to post our signs by at least 6:15, and let the occupants know we will need them at 6:30.

Another problem we want to solve is not taking possession of the courts at the time that is posted. This confuses everyone. Now that we

can make reservations a month at a time we can let Mike Pruss know what time we need the reservations for and take possession of the courts at that time.

This is a good time to remind everyone that the protocol is that League has first priority, Socials, Dropins, Practice in that order. The club never uses reserved courts for private use.

I believe these steps will prevent altercations, and create goodwill.
